

Pink e-Learning Portal

Learning anywhere, anytime and across all devices

Personalised learning journey through Memotrainer

Bite-size training

12 months unlimited access to the entire Pink training portfolio

Interactive: enables communication with a trainer or other participants

Imagine an **in-house training app** that you can use at your desk or on the move, one that provides access to world-class accredited training courses, and also one that can be tailored to a company's needs and house style.

No need to imagine.

Pink Elephant has launched its revolutionary Pink e-Learning Portal, accessible anytime and anyplace, designed with bite-size training in mind so that you are your own boss when it comes to learning.

The interactive **multi-platform app** offers lessons lasting between five and 30 minutes, which are complemented by podcasts and an online discussion forum where additional insight and practical experience can be shared.

The app also features a **Memotrainer** – a specially designed revision tool that offers the learner a daily opportunity to practise sets of questions in chosen subject areas.

The Memotrainer is an adaptive tool that tracks the development of the learner, and so automatically pinpoints particular subject areas where the individual needs a bit more help.

Should your requirement be for a single user or an organisation-wide, personalised portal for multiple employees, our app gives you access to Best Practice Methodology foundation modules for a fixed price per employee per year.

The Pink e-Learning Portal includes the following courses:

- AgilePM Foundation
- PRINCE2 Foundation
- VeriSM Foundation
- Lean IT Foundation
- Business Relationship Management Professional
- Service Automation Foundation
- Information Security Awareness

Expect more, expect Pink.
