Pink

E-Learning Portal

Why the Pink Portal?

- Unlimited access to the entire Pink e-Learning Training Portfolio for 1 year
- Learning anywhere, anytime and across all devices
- Bite-size training
- Personalised learning journey through Memotrainer
- Customise the portal to suit your organisation's needs and style
- World-class accredited training courses
- Interactive: enables communication with a trainer or other participants
- Add customised and tailored training courses to fit your organisation
- Monitor students' progress and development

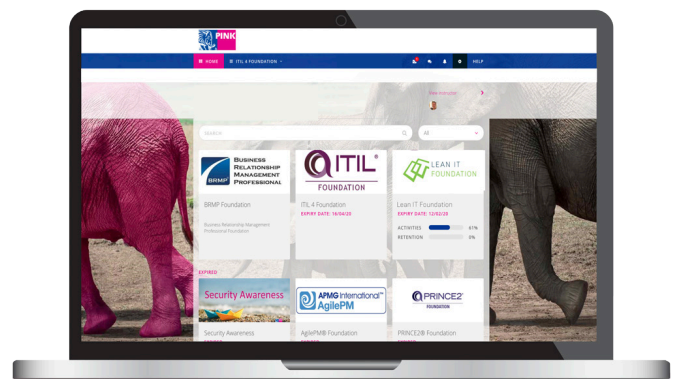

Our Pink e-Learning Portal is built with bite-size training in mind so students can complete accredited training courses efficiently, in manageable parts. Quickly allowing students to get certified in ITIL®, Agile®, PRINCE2®, Lean IT® and many other world class best practices.

Anytime Learning

Students have access to the learning platform for a whole year and via the connected app they have access anytime, anywhere to their training.

Bite-sized Learning

Our training courses are divided into short interactive lessons of ten to twenty minutes. So students can organise their time and learn at their own pace and there is no need to plan for entire course days.

Pink E-Learning for organisations

The Pink e-Learning Portal is the perfect cost-effective training solution for large teams and organisations that you and your colleagues can participate at your desk or on the move, and one that provides access to multiple world-class accredited training courses, such as ITIL 4 and PRINCE2. In addition if wanted, it can easily be tailored to meet your organisation's needs and house style allowing you to have full control of your IT Service Management training.

The app also features a Memotrainer – a specially designed revision tool that offers the learner a daily opportunity to practise sets of questions in chosen subject areas.

The Memotrainer is an adaptive tool that tracks the development of the learner, and so automatically pinpoints specific subject areas where the individual needs a bit more help.

Should your requirement be for a single user or an organisation-wide, personalised portal for multiple employees, our portal gives you this flexibility with access to Best Practice Methodology training modules for a single price for your whole organisation.

Want something else?

We can develop training courses tailored to your organisation.

In person add-ons

In addition to our wide range of online training courses, Pink Elephant offers workshops and business simulation games. Business Simulation games are the best way to deliver Best Practices, training and frameworks in a realistic environment. Bringing what students learn online into the real-world. In the workshops, we delve deeper with students into methodologies from the training courses and their application in daily practice. We can also organise revision days to help complement online learning with the help of one of our expert trainers.
