

AgilePM® Foundation

AgilePM® Foundation

Leading to the Agile Project Management Foundation Certification

Duration: 3 days

Pre-requisites: None

Delivery Methods: Classroom / Instructor Led On-line

Course Overview

The foundation AgilePM certification lives up to its name by providing the users of the method with the core principles needed to facilitate a successful project, while allowing a degree of scope and agility that not many other methodologies provide. With a clear, concise and detailed perspective on project productivity, the AgilePM certification is useful to all candidates and competency levels ranging from highly experienced project managers to those new to the industry.

This 3 day accredited course provides participants with a thorough grounding in the Agile approach and is comprised of three main elements.

The first element provides an overview of the Agile family of approaches and covers:

- What is Agile? Choosing the right Agile approach
- Agile Project Management – The Basics
- Roles and Responsibilities

The second element looks at setting up an Agile project and covers:

- Agile Project Management
- The Agile Project Management Process and Products
- Communication

The third element deals with delivering a DSDM® Atern® project and covers:

- Prioritisation and Timeboxing
- Agile Control
- Requirements, Estimating
- Agile Planning

Presented by skilled lecturers with extensive experience in the practical application of project management, the course includes examination coaching and practice using sample questions.

Target group

The training AgilePM® is designed to provide insight into the basic processes of Project Management, understanding, and is therefore especially suitable for:

The course is aimed at Project Managers and others involved in Project Management who want to understand how to apply Agile approaches within an overall project management lifecycle framework.
